# Wi-Fi SMART SOCKET
OP-WFUSB INSTRUCTIONS

Product configuration
Congratulations on purchasing the OPTIMUM OP-WFUSB Wi-Fi Smart Socket.

This smart socket allows remote control of electrical device and smaller home appliance via the Smart Life APP. A schedule can be created to turn the smart socket on/off set times, and use Voice control via a smart speaker.

Note: on/off settings for the Socket and USB ports are individually controlled by Smart APP

Specifications

Maximum current	13A (Total)
Input voltage	AC (220~240)V
Max.Load power	2990 W
Wireless Type	Wi-Fi 2.4 GHz
Controls	Manual on/off
Operating temperature	(-20 ~ +50)°C
Operating humidity	(0 ~ 95) % RH, non-condensing

1

Configuration Preparation

1. Download the smart phone application by scanning the QR Code or searching for **Smart Life - Smart Living** in the Apple App Store for iPhones, or Google Play for Android phones.

GET IT ON Google play   Download on the App Store

iOS / Android App   Smart Life - Smart Living

2

2. Launch the app and log in. New users will need to register a new account.

3. Plug the Wi-Fi Smart Socket into a mains outlet and turn on the outlet power switch. The LED should be green.
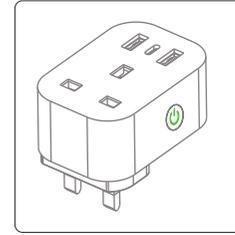

Where *Not* to Install Your Wi-Fi Smart Socket

⚠️ Do *NOT* install the Wi-Fi Smart Socket in wet or damp areas such as bathrooms and laundries.

3

Configuration

Press the on/off button on the Wi-Fi smart socket. The LED will flash rapidly green.

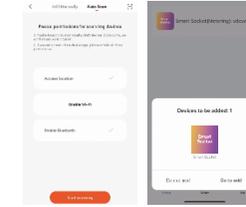

Note: If the LED does not flash, try resetting the device (see Reset on page 10).

4

Auto Scan:

While the green LED is flashing, the Bluetooth connection will automatically find the device when you open Smart Life.

5

Enter password

Search for the Wi-Fi hotspot and enter the hotspot password.

Cancel

Select 2.4 GHz Wi-Fi Network and enter password.

Tap **Next**. Observe that the device is connecting to the application.

9

Reset
If the Wi-Fi smart socket fails to respond to commands, it may need to be reset.
1. Unplug the Wi-Fi smart socket from the mains outlet.
2. Plug the device back into the mains outlet and turn on the outlet power switch.
3. Press and hold the Manual Control Button until the LED indicator flashes quickly (between 5 s and 10 s).
4. Follow the steps above in **Configuration** on page 4 to set up the device.

ON/OFF

Change Device Name
1. Tap **Device List** to see a list of connected devices.
2. Tap **Modify Device Name** and enter a

10

new name for your Wi-Fi Smart Socket.
Note: If the Wi-Fi smart socket is going to be controlled by a Smart Speaker, choose an unambiguous, clear sounding name.

Share Devices
1. In **Profile**, tap **Device Sharing**.
2. Tap **Add**.
3. Select the device to share.
4. Enter the telephone number or email address of the person you want to share with.
5. Tap Confirm.

Schedule
Schedules can be added to turn devices on or off at preset times and days of the week. The schedules can be once or repeated on certain days of the week.

To activate a schedule:
1. From the **Devices** screen, tap the **Smart Socket**, then select Schedule.
2. Tap **Add Schedule**.
3. Set up the desired **Schedule**.

11

Care and Maintenance
Firmware Update
